## Pitch (one-liner)

The Clubies is a party platformer with a built-in level editor — 1–4 players guide cute cube characters through chaotic disco hazards to the dancefloor. Solve it, race it, or wreck it with friends.

## Pitch (short)

Cute cubes, mean hazards, a dancefloor at the end. The Clubies blends physics-based platforming with a friendly level editor: anyone can build levels, share them with the community, rate them, and chase global best times. Up to four players on a couch, on Steam Deck, or via Remote Play Together — or solo against the leaderboards.

## Key Features

---

- **Level editor & user-generated content** – design, share, like, and master community levels.
- **Puzzle + speedrun** – physics-based movement that rewards both careful problem-solving and split-second mastery.
- **Local co-op up to 4** – split-screen chaos on couch and Steam Deck.
- **Remote Play Together** – online couch co-op with zero setup for friends.
- **Online leaderboards** – per-level global best times, including community content.
- **11 fully localized languages** (UI, audio, subtitles).

## Awards

---

- **2025** — Best Entertainment (€5,000), Game Award Saar
- **2023** — Community Interaction (€5,000), Game Award Saar
